# Voices from RC Fellows

## Dr Carisa YU

Dr Carisa YU has multiple roles in HSUHK. Apart from teaching and research, she is also the Programme Director of Bachelor of Science (Honours) in Data Science and Business Intelligence (BSc-DSBI). Outside classroom, she serves as Old Hall Advisor and RC Fellow of Fung Yiu King Evergreen College.

“I hope there are more interaction between RCs and Old Hall residents.”

## Old Hall & RC

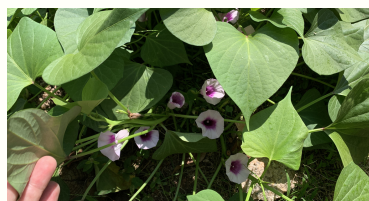

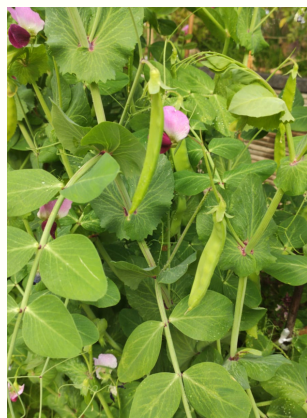

Dr YU is one of the earliest faculty members who joined the University in the era of Hang Seng School of Commerce. As one of the earliest faculty affiliated to RC Fellow, she participated in various events and activities these years.

“I enjoyed the Joint-RC Mid-Autumn Festival Celebration – student performance, the booths and fruit distribution are wonderful initiatives. I could tell the other participants enjoyed it too.” She revealed. Apart from festive events, she was invited to High Table Dinners as well. Wearing dual hats of RC Fellow and Old Hall Advisor, she hopes there are more interaction between the undergraduate residents from RCs and postgraduate residents from

Old Hall in the coming academic year.

Being pragmatic and statistical at work, Dr YU revealed that she is in fact a nature lover. “I love farming.” She said. Through the University’s “Organic Farming Scheme”, Dr YU owned a small farm on the roof of Lee Shau Kee Complex and paid visit with her colleagues several times. She enjoys growing vegetables and fruit and always shares her harvest with her kids and colleagues. Over the years, she has grown Chinese long beans, lettuce, Chinese white cabbage, snow peas, luffa,

roses, etc. “Farming connects me with my kids and colleagues: It is one of the activities I have with my kids; I find it interesting to discuss with my colleagues about the farm and make the farm better.” The farm had been under several threats of pest, and Dr YU managed to save her farm. . Knowing that there is an organic farm in the RCs operated by Fung Yiu King Evergreen College, she hopes that she can grow vegetables and fruits with the residents in Old Hall and RCs someday.

# FLASHBACK OF SPECIAL EVENTS

## Sustainability Leaders Training

Two RC Sustainability Leaders, Maggie and Jacky, visited Ng Clan's Association Tai Pak Memorial School in Ma On Shan on 5 August 2022 and conducted 2 sessions of educational talks on biodiversity in Siu Lek Yuen.

More than 600 primary students and teachers got to know how to protect biodiversity through the seeing and touching the specimens of insects which are commonly found in Siu Lek Yuen.

▲ Students are touching the specimens of insects.

## HSUHK Life Moving

Student Leaders of “HSUHK Life Moving” visited Tsang Pik Shan (Sung Lan) Secondary School and TWGHs Sun Hoi Directors' College in early August to conduct two sharing sessions of life and death education.

More than 400 secondary students played games about choice making in life with the Student Leaders. And, the Student Leaders also shared positive energy to the students by sharing what the project did in the past year.
