RC MASTERS

As the leader of the RC Management Team and overall in-charge of an RC, the RC Master builds the college's identity by designing and implementing educational initiatives based on the RC theme. Each Master leads their team in building a creative and inclusive learning culture at the RCs. The Master is also responsible for handling residents' disputes, student conduct, and emergencies at the RCs.

ASSOCIATE MASTERS

The Associate Master is another leader of the team who assists the RC Master in carrying out a wide range of duties to shape and build the RC community. They regularly participate in RC events and encourage greater student involvement. Additionally, the Associate Master deals with residents' disputes, student conduct, and emergencies at the RC.

RESIDENT TUTORS

The Resident Tutors at the University are faculty, staff members, or postgraduate students. Their role is to provide pastoral care and engage residents through activities. They oversee one or two floors, supervise the Floor Ambassadors, and act as the first point of contact for residents. If you have any questions, suggestions, or concerns, feel free to seek advice from them.

RC FELLOWS

RC Fellows are faculty members who actively engage with a particular Residential College (RC). Each Fellow affiliates with an RC and works closely with the RC Master to develop residential programs.

Fellows do not live at the RCs, but they are important learning partners to the residents. They participate in or organize RC events and provide students with advice on study, career, and personal development.

The Student Affairs Office (SAO) has designated staff members who promote and enhance the living and learning experiences of students. They obtain opinions and suggestions from students and other members of RCs to implement and refine overall RC policies.

RESIDENTIAL COLLEGES SECTION, SAO

Under the Student Affairs Office, the Residential Colleges Section (RCS) is responsible for the overall management of the RCs, including:

- Handling admission and allocation of all RCs;
- Managing the facilities and amenities of the site;
- Overseeing daily operational matters, such as security, cleaning service and maintenance.

RC SYSTEM AND EDUCATION TEAM, SAO

The RC System and Education Team supports individual RCs in educational programmes, Advisory Boards, Executive Committees, and other administration. The team works closely with student leaders of the RCs. They also coordinate joint-RC and inter-RC education programmes.

SERVICE WORKERS

Security, cleaners, technicians and other operational staff are staff who keep the RCs safe and clean. Security service is available 24/7 and a designated security station is located at the lobby of each RC.

RC-THEMED CREDIT BEARING MODULE

The RCs have incorporated four RC-themed credit-bearing modules as part of the significant segments of residential education. These modules empower student residents to explore the RC themes intellectually and benefit from them. Depending on the nature and content of the modules, some classes are physically hosted at the RCs.

Certain number of seats are reserved for RC residents. A priority registration prior to the University's Main Round of Module Registration is arranged, and the seats are offered on a first-come-first-served basis.

Building **HARMONIOUS RC COMMUNITIES**

SAY NO TO SEXUAL HARASSMENT

The University is committed to creating an environment free from sexual harassment. The University has set up protocols to handle sexual harassment complaints from University members.

GETTING ALONG WITH YOUR ROOMMATES

Let your roommate know your preferences and expectations as soon as you move in:

- Are you an early or late person?
- Are you a fan or hater of the snooze button?
- Do you tidy up your room every now and then?

The earlier you let your roommate know these things, the sooner you and your roommate can figure out a mutually beneficial way of living.

ALCOHOL AWARENESS

Possession or consumption of alcohol is strictly prohibited in the RCs. Prior approval from the RC Master must be obtained if an RC event involves drinking.

The legal drinking age in Hong Kong is 18. If you consume alcohol outside the University, make wise choices to keep your risk of alcohol-related accidents, injuries, diseases and death low.

DRUG AWARENESS

The Hong Kong government has a zero tolerance policy against illegal drug use.

Drugs such as cannabis and ecstasy, which can be considered recreational drugs in other countries are all illegal in Hong Kong. They are strictly forbidden in the RCs and the University.

If you need help and support, contact us

Developing STUDENT LEADERSHIP

RESIDENTIAL STUDENT LEADER AWARDS

Residential Student Leaders (RSLs) Award, formerly known as Residential Student Leaders Scholarships, is established to provide recognition of student's achievement in enriching students' residential life and a platform for students to demonstrate their talents to serve fellow residents.

RSLs demonstrated a genuine interest in residential life and are keen to build the RC community. They assist the RC Management Team, SAO and RCS in the development of the RC community through organizing activities, informal interaction with residents and promotion of floor bonding.

RESIDENTS' ASSOCIATIONS

Residents' Associations (RAs) are resident-elected organisations. Each RA is responsible for building a sense of belonging and identity across the RC by organising activities. RAs work closely with the RC Management Team in building the RC community.

SUSTAINABILITY LEADERS

Sustainability Leaders promote green messages to the general public and gain hands-on experiences on conservation at the same time.

After a series of training, the Leaders will organised self-initiated campaigns for the RC communities and HSUHK. Our previous initiatives include:

- Designed and led eco-tours in Siu Lek Yuen
- Coastal cleaning
- Organised experiential workshops and education talks for the public and schools
- Designed virtual tour of biodiversity in Siu Lek Yuen

FLOOR AMBASSADORS SCHEME

Floor Ambassador (FA) is a volunteer role in the RCs whose goal is to promote the bonding and cultivate a supportive network among residents of the same floor.

FAs will be nominated by Resident Tutors, who have a better understanding on the pulse and dynamics of the residential floors.

The recruitment of FAs takes place in September each year, with the flexibility to add or replace FAs anytime during the semester. Stay tuned to our announcements!

COMMUNITY CULTURAL AMBASSADOR PROGRAM

The programme aims to promote Chinese & Hong Kong culture to residents from different parts of the world. Being a member of the organizing team will take part in joining or organizing a variety of social activities such as local tours, language classes, culture carnival and activities to enhance cultural exchange in the Residential Colleges.

FIRE SAFETY MARSHAL PROGRAMME

The programme aims to promote fire safety in the RC community through different initiatives such as organising educational campaigns and assisting in fire drills.

Serving as a Fire Safety Marshal not only acquires fire safety knowledge but also get yourself involved in the RCs before taking up a more sophisticated role.

SUSTAINABILITY @ RCs

Sustainability is a word that has aroused more and more attention in recent years and affects every aspect of our lives, including lifestyle and diet. To create a greener community in the colleges, different initiatives are implemented to support RCs' sustainable development on both the practical and ideological sides.

Distinguished Green Features at the RCs

DISTINGUISHED GREEN FEATURES AT THE RCs

- 112 units of solar panels are installed to save 4.25% of total annual building energy consumption.
- Rainwater and grey water recycling system reduce 54.8% fresh water consumption.
- Bamboos and a variety of plants cover 42.8% of the RCs.
- 100% green coverage on the roof.

Signature events include upcycling workshops, coastal cleaning, forest bathing, etc.

WASTE REDUCTION AND RECYCLING

The RCs partnered with the Environmental Protection Department (EPD) to implement the GREEN COLLECT Programme in the RC community. Our goal is to make it easier for residents to practice waste reduction at the source and resource recovery on a daily basis. We believe that by enhancing the current recyclable collection services, we can create a more sustainable future for everyone.

We know that education is key to creating lasting change, and therefore maintain close connections with different organizations to provide a variety of educational initiatives for residents. We believe that this two-pronged approach is the best way to make a real impact.

And we're already seeing results! Thanks to the efforts of our community, the RCs have successfully recycled over 2,000kg of recyclables in 2022/23.
